Agenda Item D2**

**Title:** ASCOT Will Receive an Update from the Subcommittee Reviewing the AZ State Trail System (STS) and Discuss Options

**Staff Lead:** Robert Baldwin, Grants Coordinator

**Date:** June 29, 2013

---

**Recommended Motion(s):**

None.

**Status to Date:**

The State Trails System Subcommittee (STSS) held an open meeting on May 31, 2013 to discuss what the future State Trail System (STS) should look like, what the nomination criteria for trails should be and what would be the best method to store and promote the new STS database, and how the database would be updated.

Also discussed was what needs to be done to maintain the integrity of the current STS trails and how to archive/library the current system, as well as what consideration trails in the STS should receive in future grant project funding evaluations.

The subcommittee members briefly discussed potential ideas for each of the above mentioned items and determined it would be best to assign each topic to an individual to further research and provide a summary of their findings to the rest of the subcommittee members by June 17<sup>th</sup>.

A motion was made to provide ASCOT an update on the progress of the subcommittee at the next ASCOT meeting in June with an understanding that the subcommittee's recommendations for the STS would be provided at the ASCOT meeting in the Fall. The motion was seconded and all present said "aye".

A second motion was made to officially identify the subcommittee members as: Laddie Cox, Bill Gibson, Dan Gronseth, Jackie Keller, Richard Kesselman, Phyllis Ralley, and Linda Slay. The motion was seconded and all present said "aye". This provides the basis for determining a quorum.

**Time Frame:**

Subcommittee members to submit individual findings to Staff for distribution to the rest of the STSS by June 17<sup>th</sup>. STSS update to ASCOT at June meeting. STSS recommendations to ASCOT at Fall 2013 meeting.

**Staff and Financial Resources:**

Activities in support of the advisory committees are part of the normal workload for the Resources and Public Programs Section staff.

**Relation to Strategic Plan:**

Partnerships: To build lasting public and private partnerships to promote local economies, good neighbors, recreation, conservation, tourism and establish sustainable funding for the agency.

**AZ State Committee On Trails Action Item / Report  
Agenda Item D-3.**

**Title:** ASCOT Will Consider Approval of Amended Bylaws

**Staff Lead:** Robert Baldwin, Grants Coordinator

**Date:** April 26, 2013

---

**Recommended Motion(s):**

I move to accept the ARIZONA STATE COMMITTEE ON TRAILS (ASCOT) Bylaws (As Amended June 29, 2013) and request that staff present the bylaws to the State Parks Board for final approval and upon that approval they become effective immediately with term limits applying to all members seated as of January 1, 2014.

**Status to Date:**

ASCOT developed bylaws in 2010 when the composition of the committee was reduced from 25 members to 15 members. Those bylaws have not been amended. Staff is attempting to develop standardized bylaws to guide volunteer advisory committees. At the January 25, 2013 meeting, ASCOT tabled any action on amending the bylaws after some discussion.

The primary concern addressed in the January 25, 2013 meeting was term limits. At the April 26, 2013 meeting staff presented the ASCOT recommendation for term limits as an amendment to the limits proposed in the draft bylaws. The Committee voted unanimously to accept the language proposed in the original draft bylaws.

The Committee also discussed language in draft bylaws addressing attendance in Sec. III, Part H. The Committee voted unanimously to accept the language proposed in the original draft bylaws.

The existing ASCOT bylaws (2010) require amendments to be discussed at one meeting before they can be approved. At the April 26, 2013 meeting the Committee agreed that there were no other portions of the proposed amended bylaws that needed discussion. Therefore, a motion to accept can be considered.

**Time Frame:**

Upon approval by ASCOT staff will present the Bylaws to the State Parks Board at their next scheduled meeting.

**Staff and Financial Resources:**

Activities in support of the advisory committees are part of the normal workload for the Resources and Public Programs Section staff.

**Relation to Strategic Plan:**

Partnerships: To build lasting public and private partnerships to promote local economies, good neighbors, recreation, conservation, tourism and establish sustainable funding for the agency.

**Relevant Past ASCOT/Board Actions:**

ASCOT developed bylaws in 2010.

ASCOT advises the State Parks Board and staff on the planning, development, funding, maintenance, and promotion of nonmotorized trails in Arizona. ASCOT members represent a variety of non-motorized trails interests and geographical regions within Arizona. Each individual is appointed to a three-year term. ASCOT meets approximately four times per year; twice during the week (Friday) and twice on the weekend (Saturday) at locations around the state. Subcommittees of ASCOT meet more frequently throughout the year to accomplish goals. Members are expected to be active in the various Subcommittees and commit time between quarterly meetings to help accomplish the goals of ASCOT.

ASCOT members derive from a representative mix of governmental agencies, trails user groups and representatives-at-large. At present, the committee is seeking to fill five (5) positions that will be vacant on January 1, 2014. Selected candidates will meet the affiliation requirements below.

## **Three Conference Workshop Tracks**

Focus on the three Goals for the Decade for National Trails

### **1. TELLING OUR STORIES AND ENGAGING NEW PARTNERS**

Participants will learn from successful and effective programs that engage teachers, students, young adults, and under-represented trail communities such as Native Americans, Latinos, and African-Americans.

We hope to include successful examples of social media use and new technologies that help deliver our stories to a new set of trail enthusiasts.

### **2. PRESERVING SPECIAL PLACES AND PROTECTING THE TAPESTRY OF THE LAND**

Participants will examine successful programs of protection

actions, community collaboration, historic and landscape preservation, and working with unlikely partners.

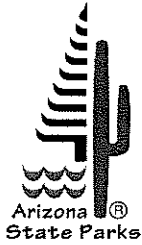

Topics that may be included: using resource monitoring and stewardship programs to protect critical resources, developments in land acquisition programs and associated funding and partnerships, trails as community and heritage assets, and navigating and using federal agency policies to protect trails and their landscapes.

### **3. STRENGTHENING OUR TRAIL ORGANIZATIONS AND OUR TRAIL COMMUNITIES**

In economically tight times, federal funding for National Trails is more threatened than ever. The National Trails community must be effective at diversifying trail funding and increasing private support. Trail organizations need to attract new and more diverse supporters, members, and active volunteers. This is an opportunity for participants to share best practices for resource and volunteer and board leadership development to ensure their organizations are effective and sustainable.

**Title:**           **Status of Statewide Trails App**

**Staff Lead:** Robert Baldwin, Grants Coordinator

**Date:**           June 29, 2013

---

**Recommended Motion(s):**

None.

**Status to Date:**

The Trails APP technically is completed, however due to some programming issues, our IT Officers are still working on the details of the structure of the APP to be sure it is operating correctly. Once the base application software is complete, there will be a review of the "Shape files" already in the system to be sure all the trails are not duplicating as they cross land management agencies. Each trail manager must have access to the system to manage their trails systems files. The password process and program is still being checked as well.

Arizona State Parks' Chief of Information Technology is at the Apple Conference in San Francisco and will be getting more support there to be sure each of the parts of the APP can be changed so they can all work together. The final plan will be to do a training session with all the trails managers so all the shape files can be updated. Beta testers of the program are on the ground and providing feedback at this time to ASU regarding their findings for use of the APP.

You can download the Beta test version on "smart phones" by contacting State Parks IT rep Vince Schiavitti at 602.364.2057. We are still inviting comments on the uses and features. The APP can only be loaded on I-phones by scheduling an appointment to go to the ASU Downtown Campus.

**Time Frame:** A public announcement will be made when the final version is ready and it will be available to download online. Those persons who have the Beta version will need to download the final version.

## PROJECT DESCRIPTION

The Black Canyon Heritage Park Trail RTP project provided much needed recreational and environmental interpretive opportunities in the small central Arizona community of Black Canyon City. Surfaced with indigenous rock, the trail tread width is six feet wide and weaves through recently restored desert riparian habitat. The new ½ mile trail was developed through a community-local government partnership and was inducted into the Arizona State Trails System by Arizona State Parks, denoting its significant and unique contribution to the trails system in Arizona. This RTP-funded development project has helped spur future plans for the project area including stocking the pond with Threatened and Endangered Arizona native fish and improving the current project with support facilities including benches, shade structure, and interpretive panels.

March 11, 2013

Mr. Duane Taylor  
Coalition for Recreational Trails  
1235 South Clark Street, Suite 600  
Arlington, VA 22202

Dear Mr. Taylor:

I am writing to express our strong support for a 2012 national achievement award recognizing the Black Canyon Heritage Trail in Black Canyon City, Arizona for outstanding Recreational Trails Program (RTP) projects through the Coalition for Recreational Trails (CRT).

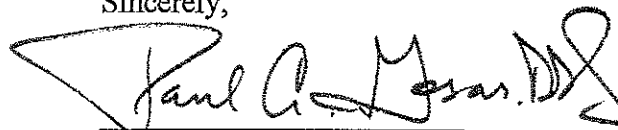

The Black Canyon Heritage Trail is an excellent example of how local and state collaboration can create a unique and outstanding visitor experience in Arizona's distinctive Sonoran Desert environment. Completed in 2012, it has quickly become one of the most popular trails in the area providing visitors contact with desert flora and fauna and a rare desert riparian area.

This RTP project provided much-needed recreational and environmental interpretive opportunities in this small central Arizona community. Surfaced with indigenous rock, the trail tread width is six feet wide and weaves through recently restored desert riparian habitat. The new half-mile trail was developed through a community-local government partnership and was inducted into the Arizona State Trails System by Arizona State Parks, denoting its significant and unique contribution to the trails system in Arizona. This RTP-funded development project has helped spur future plans for the project area including stocking the pond with Threatened and Endangered Arizona native fish and improving the current project with support facilities including benches, shade structure, and interpretive panels.

Again, I urge you to recognize Black Canyon Heritage Trail for a 2012 national achievement award through the Coalition for Recreation Trails (CRT).

Thanks in advance for your consideration of this outstanding project.

Sincerely,

A handwritten signature in dark ink, appearing to read "Paul A. Gosar", with a stylized flourish at the end.

Member of Congress
